TOCKKY "FLOCK"

Acoustic Tiles are hi-efficient sound-absorbing solutions for school, home, and office use.

Tockky combines acoustic felt tiles, with industry-unique surface "flocking" create velvet-like acoustical panels.

"TOCKKY FLOCK" Tiles standard size is **1'x1'** and **2'x2'** depends on color and availability.

"TOCKKY FLOCK" Tiles are unique acoustical panels. It is PET felt panel cover by flock layer. This is process was perfected in-house by Tockky engineers.

Flocking process over acoustical panels combines hi-quality finish with desire acoustic properties.

Our panels can be manufactured up to **2'x10'** and thickness up to **1''**.

That expands fabrication and installation options, as well as reduce cutting waste.
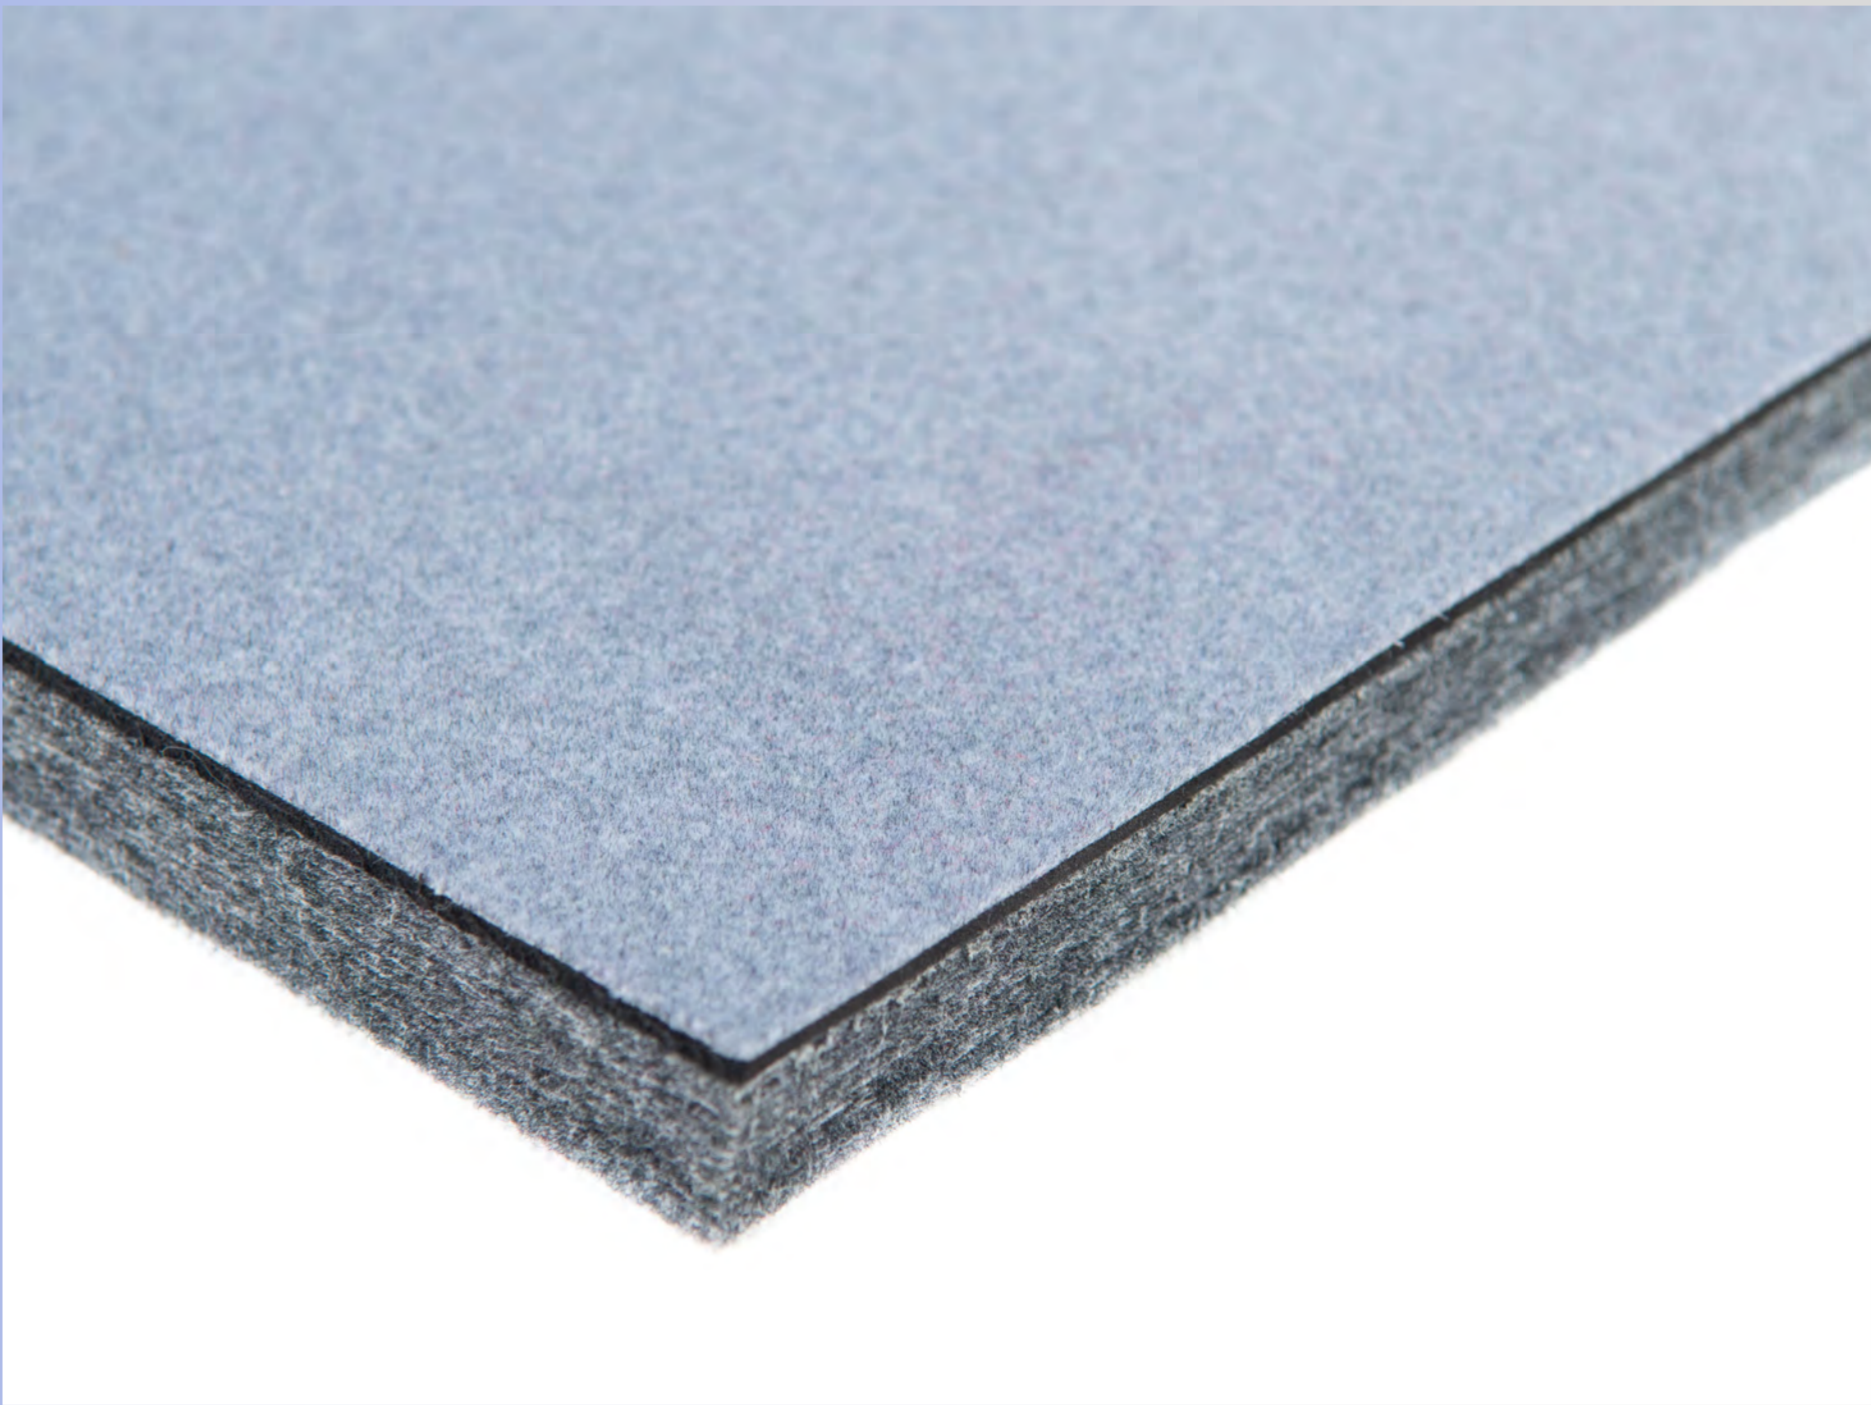

For significant improvement in **NRC**, we introduce the "off-the-wall" grid mount that off-set panels from the wall 1-1/2''.
